

BPCO OINTMENT- dressing, wound, occlusive AVPAK

BPCO Ointment

Wound Dressing

Rx Only

DESCRIPTION: BPCO Ointment contains Balsam Peru, Castor Oil USP, Glyceryl Monostearate and White Petrolatum.

ACTION: BPCO Ointment provides a moist wound environment and acts as a protective wound covering.

INDICATIONS: BPCO Ointment is a wound dressing for topical use used to manage chronic and acute wounds, and dermal ulcers.

CONTRAINDICATIONS: BPCO Ointment is contraindicated in persons who have shown hypersensitivity to Balsam Peru, Petrolatum or any of the other ingredients used in this ointment.

USES: BPCO Ointment is easy to apply. The wound may be left open or appropriate dressing applied. Please note that wounds generally heal poorly in the presence of hemoglobin or zinc deficiency.

WARNING: FOR EXTERNAL USE ONLY: Do not apply to fresh arterial clots. Avoid contact with eyes. Keep tightly closed. Use only as directed by a physician. When applied to a sensitive area, a temporary stinging may occur. Keep out of the reach of children.

USUAL DOSAGE: Apply a thin film of BPCO Ointment topically a minimum of twice daily or as often as necessary. Wound may be left unbandaged or appropriate dressing can be applied. To remove, wash gently with an appropriate wound cleanser.

HOW SUPPLIED: BPCO Ointment is supplied as follows:

5 gram tube	50268-999-20
20 per carton	

STORAGE: Store at 20-25°C (68-77°F); excursions permitted to 15-30°C (59-86°F). Brief exposure to temperatures up to 40°C (104°F) may be tolerated provided the mean kinetic temperature does not exceed 25°C (77°F); however such exposure should be minimized. See USP Controlled Room Temperature. Protect from freezing.

See carton and crimp for lot number and expiration date.
